CUMULATIVE INDEX: VOLUME 11

SUBJECT INDEX

Acoustic neuroma, 12-19
  failure to diagnose, 144-145
  sex hormone receptors in, 237-239
  stereotactic radiosurgical treatment, 330-333
Acoustic reflex testing, 218
Acoustic tumors, 216-224
  basic research, 222-223
  complications, 223
  diagnosis, 216-219
  facial nerve preservation and repair, 221-222
  hearing preservation, 221
  histopathology, 219-220
  immunohistochemical localization of vimentin and S-100 antigen, 310-313
  instrumentation, 222
  treatment, 220-221
  see also specific tumors
Adenomatous tumors, 20-26
Allograft tympanoplasty, 157-163
Antidepressants, 380
Anti-inflammatory analgesics, 379-380
Atypical Coogan's syndrome, 131-134
Audiometry, 217-218
Audiovestibular function, 338-341
Auditory brainstem response, 119-124, 217, 314-319
Auditory evoked potential units,
  commercial, 181-191
  luxury, 189-191
  midpriced, 183-189
Auditory evoked response, 447-453
Auditory/verbal approach, 99-106
Aural tuberculosis, 174-177
Autoimmune sensorineural hearing loss, 342-346

Basement membrane, 91, 93
Beethoven, Ludwig von, 370-374
Behavioral medicine, 381
Bell's palsy, 153-156
Bilateral tumors, 222
Biopsies, 54
Blood flow, 266-271
Blood transfusion, 257-258
Bone conduction auditory brainstem response, 119-124
Bone resorption, 39-43
Brain autopsy, 110
Brain stem, 357-359
Burres-Fisch method, 240-246

Central neurofibromatosis, 108-112
Central vestibulo-auditory dysfunction, 131-134
Cerebellopontine angle, 178-180, 222
Cerebrospinal fluid otorhinorrhea, 178-180
Cervicothoracic sympathetic block, 380-381
Chemical vestibulectomy, 395-399
Chemotherapy, 221
Chinchilla, 431-436
Cholesteatoma
  and bone resorption, 39-43
  of external ear canal, 113-116
  surgery for, 247-249
Choroid plexus papillomas, 222
Chronic ear surgery, 79-84
Chronic otitis media, 39-43, 387-39
Cisplatin ototoxicity, 375-377
Cochlear implant
  complications, 415-420
  in Hong Kong Cantonese, 421-426
  pros and cons, 282-289
  scala vestibuli for labyrinthine ossification, 360-363
  and speech perception in children, 99-106
Cochlear nerves, 310-313
Cochlear otosclerosis, 196-200
Cochlear reserve, 119-124
Collagen-induced inner ear disease, 27-32
Computerized tomography *see* CT scans
Coogan's syndrome, 131-134
Cranial nerves, 1-5, 403
CT scans, 12-19, 218, 361, 387-394
Custom canal hearing aids, 44-46

Deafness *see* Hearing loss
Delayed sensorineural hearing loss, 95-98
Dysequilibrium, 338-341

Eardrum perforation, 427-430
Early onset sensorineural hearing loss, 326-329
Electrocochleography, 217-218, 260-265
Electrodes, 314-319
Electroneuronography, 218
Endolymphatic duct, 135-140
Endolymphatic sac blood vessels, 90-94
Endoneurial fluid pressure, 164-167
Environmental sounds, 283, 285
Eosin staining, 311
Eustachian tube, 272-273
Evoked potential tone-on-tone masking patterns, 431-436
Extended skull base surgery, 254-259
External auditory canal, 117-118
External ear canal, 113-116

Facial nerve, 164-167, 221-222, 240-246, 320-324
Facial pain, 299-303, 378-381
Facial paralysis, 322-323, 357-359
Fallopian canal, 320-324
Fluid dynamics, 54-55

Gamma knife, 330-333
Gentamicin, 406-410
Glomus temporale tumors, 1-5
Guinea pigs, 27-32, 164-167, 267, 343

Haematoxylin, 311
Headaches, 301-302
Head pain, 299-303, 378-381
Hearing aids
  computer generated probe microphone measurements, 125-127
  custom canal, 44-46
  implantable, 250-253
Hearing loss
  autoimmunue sensorineural, 342-346
  of Beethoven, 370-374
  delayed sensorineural, 95-98
  early onset sensorineural, 326-329
  risk factor for cisplatin ototoxicity, 375-377

Hemangiomas, 117-118, 222
Homograft tympanoplasty, 66-70, 307-309
Hong Kong Cantonese, 421-426
House-Brackmann method, 240-246
Hydrocephalus, 330-333
Hydrops, 52-53
Hydroxylapatite wall reconstruction, 411-414
Hyogo Ear Bank, 157-163
Hyperbaric oxygen, 347-352
Hypoglossal canal and nerve, 402-403

Infratemporal fossa approach, 256-257
Inner ear
  collagen-induced disease, 27-32
  effects of topical gentamicin, 406-410
  and Type II collagen distribution, 34-35
Internal auditory canal, 201-203
Intravital fluorescence microscopy, 266-271

Jugular bulb, 403

Keratosis obturans, 114-115
KTP laser, 79-84

Labyrinthine ossification, 360-363
Larsen's syndrome, 205-206
Lasers, 79-84, 222
Leptomeningial gliomas, 222
Lesions, neocortical, 447-453

Münchausen syndrome, 192-195
Magnetic resonance imaging, 278-281
Magnetic response (MR), 153-156, 219
Malignant external otitis, 207-210
Malleus head fixation, 354-356
Mastoid
  adenomatous tumors, 20-26
  obliteration of cavity, 169-173
  surgery for chronic otitis media, 387-394
Matrix Test, 106-107
Meniere's disease, 51-62
  diagnosis, 57-58
  epidemiology and incidence, 51-52
  etiology, 55-57
  inner ear effects of topical gentamicin, 406-410
  management, 58-59
  and otosclerosis, 135-140
  pathophysiology, 52-55
  reporting criteria, 52
  selective chemical vestibulectomy, 395-399
  surgical procedures, 59-62
Meningiomas, 201-203, 222
Microphil injection, 267
Micropore strip tape patching, 427-430
Microsurgical anatomy, of lower skull base, 401-405
Middle ear
  adenomatous tumors, 20-26
  effects of pressure on bone resorption, 39-43
  long-term ventilation, 454-457
  and Type II collagen distribution, 35
Middle fossa approach, 220
Million Clinical Multiaxial Inventory (MCMI), 334-337
Monkeys, 33-37
MR see Magnetic response
MRI see Magnetic resonance imaging
Multistrand wire spring prosthesis, 293-296
Muscle relaxants, 380
Musculoskeletal/myofascial pain, 300
Myoneural (trigger point) injection, 380
Myringotomy, 272-273

Neck pain, 299-303, 378-381
Neocortical lesions, 447-453
Nerve block therapy, 380-381
Neurofibromatosis, 108-112, 222
Neurologic disease, 301
Neuromas, 12-19, 144-145, 222
Neurovascular decompression, 95-98
Nonsteroidal anti-inflammatory analgesics, 379-380
Nucleus cochlear implant, 99-106

Objective tinnitus, 437-442
Occlusion effect, 44-46
Operative report, 71-73
Orofacial pain, 300-301
Ossicular chain, 290-296
Ossicular replacement prosthesis, 85-88
Osteomyelitis, staphylococcal, 347-352
Osteoradionecrosis, 6-11
Otalgia, 300
Otitis media
  chronic, 39-43, 387-394
  secretory, 207-208
Otogenic Münchausen syndrome, 192-195
Otorhinorrhea, 178-180

Otosclerosis
  cochlear, 196-200
  and Meniere's disease, 135-140
Oxygen, 347-352

Pain, 299-303, 378-381
Panic disorder, 338-341
Paralysis, facial, 322-323, 357-359
Paroxysmal positional vertigo, 444-446
Patulous eustachian tube, 272-273
Physical therapy, 381
Posterior canal wall, 169-173
Postural disturbances, 444-446
Pseudohypoparathyroidism, 354-356
Pterional (subtemporal) approach, 2
P300 component of auditory evoked response, 447-453
Rabbits, 164-167, 343
Radiation injury, to temporal bone, 6-11
Radical cavity surgery, 169-173
Rats, 39-43
Retrosigmoid approach, 178-180, 220, 255-256

Scala vestibuli cochlear implantation, 360-363
Scanning electron microscopy, 274-277
Sclerosteosis, 320-324
Secretory otitis media, 207-208
Selective chemical vestibulectomy, 395-399
Sex hormone receptors, 237-239
Skull, 254-259, 401-405
Somatic nerve blocks, 381
S-100 antigen, 310-313
Speech, 283-286
  Cantonese, 422-423
  perception with cochlear implant, 99-106
Stapedectomy, 128-130, 205-206
Staphylococcal osteomyelitis, 347-352
Stereotactic radiotherapy, 220-221, 330-333
Streptomycin, 395-399
Suboccipital/retrosigmoid approach, 220
Surgery
  acoustic tumor, 220
  central neurofibromatosis, 111
  for cholesteatoma, 247-249
  chronic ear, 79-84
  contracting for otologic, 461-462
  control of bleeding in extended skull base, 254-259

for Meniere's disease, 59-62
radical cavity, 169-173
see also Cochlear implant
Sympathetic fiber mediated pain, 302-303

Temporal bone
central neurofibromatosis, 109-110
Meniere's disease, 53-54
radiation injury to, 6-11
sclerosteosis of, 320-324
staphylococcal osteomyelitis of, 347-352
Temporalis fascia, 275
Tic douloureux *see* Trigeminal neuralgia
Tinnitus, 287, 334-337, 437-442
Tone-on-tone masking patterns, 431-436
Tragus cartilage, 454-457
Transcutaneous electrical nerve stimulation (TENS), 381
Transected vestibular nerve, 311
Translabyrinthine approach, 220, 255-256
Transtympanic electrocochleography, 260-265
Traumatic eardrum perforation, 427-430
Trigeminal neuralgia (tic douloureux), 95-98
T-tube, 454-457
Tuberculosis, 174-177
Tumors *see* Acoustic tumors; specific types of tumors
Tympanic grafts, 274-277
Tympanic membrane, 266-271, 275
Tympanoplasty
allograft, 157-163
homograft, 66-70, 307-309
Type II collagen distribution, 33-37

University of Alabama, 128-130
Upper cervical muscles, 402

Vascular malformation, 357-359
Vascular objective tinnitus, 437-442
Venous system, 403
Vertebral artery, 402
Vertigo, 178, 395-399, 444-446
Vestibular tests, 218
Vestibulectomy, 395-399
Vestibulo-auditory dysfunction, 131-134
Vestibulocochlear nerve, 278-281
Vimentin, 310-313
Von Recklinghausen's disease, 222

AUTHOR INDEX

Abramson, Maxwell, 39
Althaus, Sean R., 201
Amedee, Ronald G., 395
